ranjan.mndr@gmail.com

Motivated Computer Engineering graduate with almost 5 years of software engineering experience. Seeking opportunities to apply technical skills and contribute to innovative projects within a dynamic organization. Eager to collaborate and drive positive outcomes through effective teamwork and problem-solving.

EXPERIENCE

Teksewa Services

June 2023 - July 2024

At TekSewa Services, I mainly worked for a U.S.-based company to develop applications for telecommunications like AT&T, Verizon, T-Mobile etc

- Upgrade existing application from V2 to V3, which included application development itself with features containing but not limiting to HR HUB, Site Management, Inventory management etc
- Debug, test and maintain as well as take full responsibilities of the projects developed.

Worldlink Communications, Lalitpur — Software Developer

October 2019 - Feb 2023

At Worldlink Communications, I worked on real time web applications with features like queues, caching, mailing, billing and qr payments. My key responsibilities were to

- Develop real time application, create Rest APIs along with TDD, Dockerization, Deployment(ansibles/portainer) to achieve CI/CD.
- Maintain(Bug fixes, New Features, Migrations) old code-base projects
- Hands on experience with development of micro-services and multi-tenant applications
- Deploy, monitor, maintain and take full responsibility of project developed.

Adept In

Node JS, PHP(core PHP, Laravel/Lumen Framework, CI Framework), Golang, HTML, Javascript, JQuery, Ajax, Bootstrap, Redis, SQL.(oracle, mysql),MongoDB,Docker,Linux, GIT

PROJECTS

TruNorthe - A U.S telecommunication application for inventory management, HRHub etc

NetTv - Complete application for Nettv operations as well as integration of Nettv endpoints

Beacon - A product which is used as a mesh router

ePayment - Payment gateway integration third party merchant (khalti, esewa, imepay)

NMS - Notification Management System - Central api to send all messages from every application

Ticketing System-Application that allows users to submit support requests, called tickets, for customer service and technical support

EDUCATION

Nepal Engineering College

Bachelor in Computer Engineering

2014 - 2018

TRAININGS

Broadway Infosys

Advance PHP - 2016
